The **GBN**
Explorer, the
pallet nailer
you really
want.
1000 plus per
day with two
operators*.

***Stringer Pallets, Block Pallets less.**

Ask the folks that own a GBN.

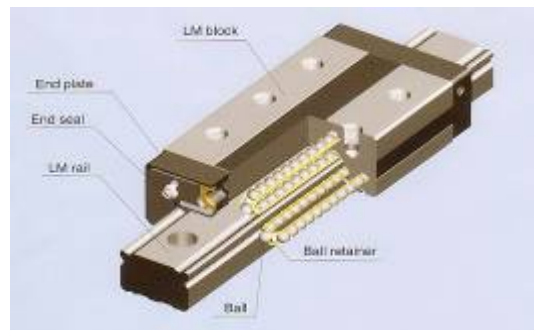

All hydraulic Stacker. GBN uses this on all its systems.

2 Nail Pans hold 100 lbs. of loose nails and have quick unloading.

Simple, efficient Hydraulic Power. Oversized Nail Cat Walk is for safe loading.

GBN uses modern Linear Bearings.

Air Clamping, no wrenches means faster changes. Compensating Chucks.

Hopper for Stringers, the GBN Mini Feeder.

Automatic Turner. No Manual labor involved.

Half Pallet returned under nailer, not through it.

This Explorer has remanufactured Nailer and Stacker.

The GBN Explorer is a machine to make you money with new or recycled material.

The Explorer

This is the only Single Nailer with Turner that does not back up. It runs one direction, top, then bottom, then top, and so forth. With no reverse, production is between 1000 and 1200 Stringer Pallets per shift; Block Pallets less.

Pallet Size Limits	Minimum	32 x 24 inch	800 mm x 610 mm
	Maximum	60 x 72 inch	1525 mm x 1828 mm
Stringers: 5 Standard	Compensating Chucks.	One Year GBN Limited Warrantee.	Can be set to make block pallets later.
